1. Jim, each of us who had the opportunity to attend your presentation would like to say a heartfelt thank you! It is a rare occasion that we have the opportunity to listen to such a gifted speaker who has such a significant message to deliver. Many of your listeners had Vietnam experience and could really identify with your experiences and with your response to them. For our younger folks it was a great opportunity to get some identification with that experience and to witness the impact it can have. I have certainly enjoyed all of the enthusiasm that you generated in that group of people.

2. On behalf of all of us, we would like to once again say thank you. We commend Hal Isenhoff for his efforts in providing us this opportunity. If the two of you can work out a time to fly in in the A-37 that would be super. Thanks again.
